

Heat Pump Quick Guide, EasyAce

Document	Designation
Heat pump quick guide	M8007 (34793602*)
Heat pump user manual	M8004 (34793603*)
*Finnish version only	

Connecting your Android device to the heat pump

1. Enter the Unit ID.

Each heat pump has a unique **Unit ID**. Either type in the ID or scan the heat pump's QR code with a camera. The ID is on the heat pump's front panel.

2. Read the *Terms of Service*.

Read the *Terms of Service*. Return by tapping the top left or right corner.

3. Accept the *Terms of Service*.

If you do not accept the *Terms of Service*, you won't be able to use the heat pump with your device.

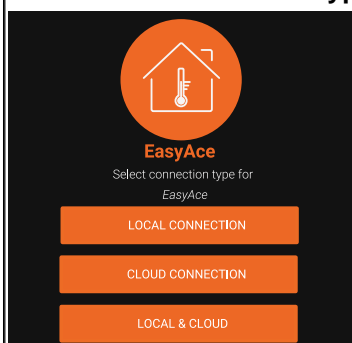

4. Connect EasyAce to the heat pump's Wi-Fi network.

- Skip if you selected Cloud as the connection type.

Exit the app, and connect your mobile device to the heat pump's Wi-Fi network.

- Connect your device exactly as you would connect to any other Wi-Fi network.
- The name and password for the Wi-Fi network are on the unit's front panel.

5. Select the connection type.

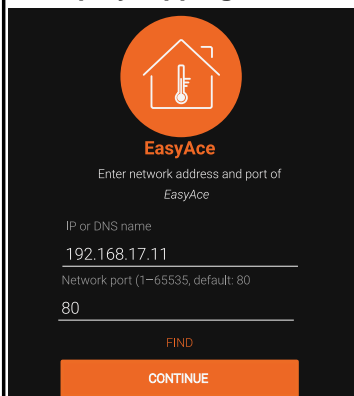

If you select **Cloud connection** or **Local & Cloud**, the heat pump needs to be connected to the internet.

6. Give the password.

The password is on the unit's front panel.

7. Skip by tapping Continue.

This screen is not shown when using a **Cloud connection**.

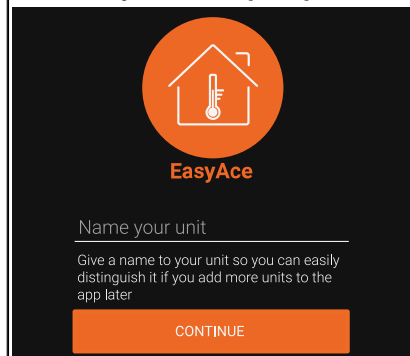

8. Enter the Connection ID.

The **Connection ID** is retrieved automatically. Tap **Continue**.

- This screen is not shown when using a **Local connection**.

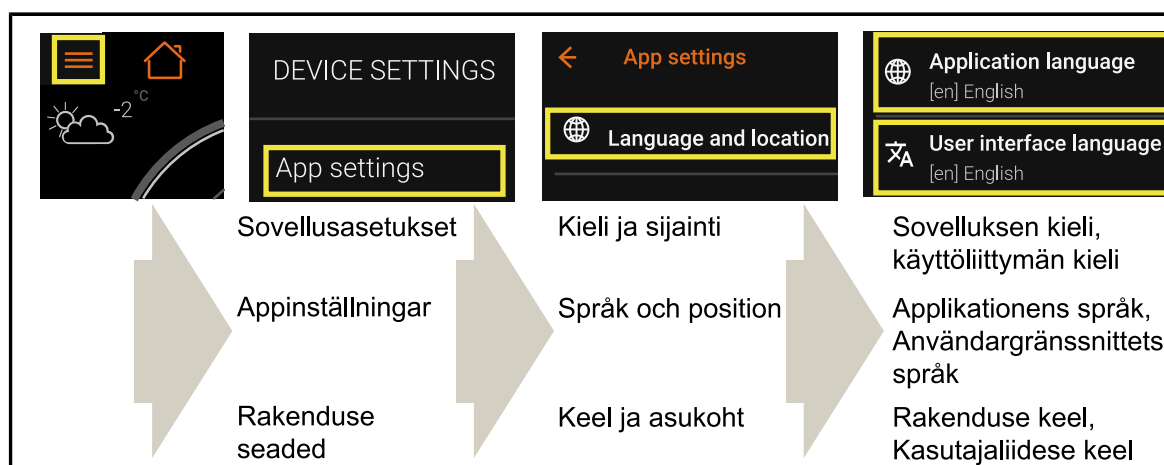

9. Name your heat pump.

Tap **Continue**. The connection between your device and the heat pump has now been established.

Connecting your iOS device to the heat pump
